STRANDS

■ PBL 101:

An Introduction to Project Based Learning

This foundational three-day workshop in Project Based Learning – based on our model of Gold Standard PBL – is the best way to begin your PBL journey. In this workshop, you'll plan a Gold Standard project for your students and learn equity-centered teaching practices to facilitate high-quality PBL. The PBL 101 workshop models the Project Based Learning process.

■ PBL 201: Equity & Gold Standard PBL*

In this workshop, participants explore critical considerations for fostering equity in the PBL classroom. Participants reflect on their own identities and mindsets related to equity. They will refine a project design with educational equity in mind and plan for project implementation with an eye toward creating meaningful, challenging, and culturally relevant learning experiences for all learners, particularly those historically marginalized by our educational system.

*Prerequisite: PBL 101 or equivalent

■ PBL Coaching Workshop*

Deepen your expertise as a PBL instructional coach or leader by engaging in this three-day experience where you will create a PBL Coaching Toolkit to help you support teachers with implementation of Gold Standard PBL.
