SPOTLIGHT: OCM BOCES Embedded Programs

Heavy Equipment Repair, Operations & Diesel Technology

This year, 70 juniors and seniors have enrolled in this two-year Career & Technical Education program located at All-County Collision & Repair in Homer and Tracey Road Equipment in East Syracuse. Students learn essential skills in the operation and repair of heavy machinery and heavy-duty diesel trucks using the latest techniques and diagnostic equipment. An experienced classroom instructor and on-site professionals are getting them well-prepared for a potential career in this high-demand industry.

Firefighting and Emergency Medical Technician

This new, two-year Career & Technical Education program is off to a busy start at the Madison County Emergency Management Training Center. Students have the opportunity to earn certifications in Basic Exterior Firefighting Operations (BEFO) and Emergency Medical Technician (EMT)-Basic. The half-day class combines an on-site classroom with access to facilities, rescue equipment and highly dedicated emergency responders.

Career & Technical Education

Students who earn a Career & Technical Education endorsement on their high school diplomas have met rigorous academic and industry standards that are recognized by employers and colleges across the United States.

In 2023, these seniors from Cazenovia were eligible for CTE endorsements: Jon Brown, Avery Dauenhauer, John Fowler, Ernest Franks, Jessie Nourse, and Garrett Rogers.

Seal of Civic Readiness

To earn the Seal of Civic Readiness, students must demonstrate an understanding and commitment to making a positive difference in their communities through civic knowledge, skills, actions, mindsets and experiences. At OCM BOCES, 58 seniors in our Innovative Education and Special Education programs achieved this formal distinction during the 2022-2023 school year.

OCM BOCES & Cazenovia = Student Success

Joe Awald has found his passion in the Heavy Equipment Repair, Operations & Diesel Technology program housed at Tracey Road Equipment in East Syracuse.

Outside the classroom, Joe is rebuilding a diesel engine in the adjacent shop and sanding and prepping a truck so it can be rebuilt. The work is hard but soothing — the perfect combination for a young man who loves to learn on his feet and work with his hands.

“Joe finds it relaxing to be able to take something that is broken and bring it back to life,” said his instructor, Bryan Wilson.

Joe hopes to enter the workforce immediately after high school and land a well-paying job, so the skills he is learning in this two-year Career & Technical Education program will give him an advantage. He also appreciates the friendships he has formed with students from other local school districts, calling it one of the program’s biggest benefits.

Every day, he’s excited about applying his knowledge — and learning more.

“Joe is always one of the first to be done with his classwork,” Wilson said. “He works extremely hard to make sure it’s complete so he can spend more time working on projects. This alone shows me that Joe is highly motivated to learn the skills he will need to be successful.”

Did You Know?

The Cazenovia Central School District has fully embraced Restorative Practices across all grade levels. Faculty and staff that have been trained in multiple models and are currently implementing them in all classrooms. The basis of this work is to create more positive relationships with students and provide a voice to all members of the learning community. The dedication of the Cazenovia administrative team, coaches and faculty members to Restorative Practices is a model for all other districts as they fully explore their own Multi-tiered Systems of Support.
