SPOTLIGHT

Innovation Tech celebrates 10 years!

When Innovation Tech opened its doors in the fall of 2014, this first-ever “New Tech” school in Central New York broke many of the rules of a traditional high school. Students had no assigned desks. They worked in teams on real-world challenges. Teachers, called “facilitators,” encouraged students to direct their own learning.

With the support of its districts and community partners, OCM BOCES took a chance on Innovation Tech and, two years later, on Seven Valleys New Tech Academy in Cortland. Today, these OCM BOCES “sister” schools continue to meet the needs of students who flourish in small, close-knit settings with a project-based approach to learning.

Building Community

Restorative Practices: Poke your head in almost any OCM BOCES classroom, and you'll probably discover a regular “check-in” circle in which students and staff share their feelings, discuss nearly any topic of interest, and ultimately forge close connections with classmates and teachers. OCM BOCES is committed to using circles and other Restorative Practice techniques to support a positive school culture, maintain healthy relationships, and resolve difficulties.

Therapeutic Crisis Intervention (TCI) is another way OCM BOCES builds community in its Student Services programs. TCI's goal is to create safe, trauma-sensitive environments by training educators to prevent or de-escalate crises therapeutically. TCI also provides students with coping tools to handle stressful situations. School districts can receive TCI training through Cornell University in partnership with OCM BOCES.

New! Engineering Technology in Cortland

A new, two-year Engineering Technology Professions program at the OCM BOCES Cortlandville Campus includes exciting partnerships with Cornell University and Tompkins Cortland Community College (TC3). As part of the class, students delve into the fascinating world of nanoscale science at Cornell's NanoScale Facility and earn up to 10 college credits through TC3. This unique opportunity combines hands-on experience with academic rigor, preparing students for college or careers in engineering and technology fields.

Career & Technical Education

Students who earn a Career & Technical Education endorsement on their high school diplomas have met rigorous academic and industry standards that are recognized by employers and colleges across the United States.

In 2024, these seniors from Fabius-Pompey were eligible for CTE endorsements: Ashlee Freebern, Gavin Breed, Reed Brown, Justin Bumpus, Logan Coseo, Kloeey Fairbanks, Jacob LaLonde, Hali Lindsay, Lane Randall, Caleb Seubert, Matthew Snyder Jr, Eliza Taubman, Broc Tupper, and Josslyn Wagner.

OCM BOCES & Fabius-Pompey = Student Success

With less than a year of experience in the OCM BOCES Health Occupations program, Emma Kadlubowski, a junior at Fabius-Pompey, confidently enrolled in the regional SkillsUSA competition in February 2024.

Emma focused on something she knew well—CPR. Her confidence paid off with a first-place win, and just two months later, she secured third place at the state SkillsUSA competition.

“We try and help out as much as we can, even if that means they just need someone to talk to,” Emma said.

Her teacher, Laura Swayze, affirms that Emma’s skills align perfectly with her career choice.

“Emma is very outgoing,” Swayze said. “She is usually one of the first to volunteer for things.”

Emma appreciates the supportive environment, education, and relationships she has built at OCM BOCES.

Embracing challenges is essential to pursuing one's passion, but Emma believes one virtue is crucial for success.

“Nursing is hard, but it’s easier if you are patient and take your time,” she said. “I really want to become a nurse so I can help others, and this program helped me start learning what I actually wanted to learn.”

Throughout her time in the Health Occupations program, Emma has cared for residents in a nursing home setting during her clinical hours. She notes that care often extends beyond meeting a patient’s physical needs.

“All the teachers at BOCES are so welcoming and helpful,” she said. “There is no judgment.”

After graduation, Emma plans to continue her education at Tompkins Cortland Community College, feeling well-prepared thanks to her experience at BOCES.

“I’m looking forward to adding skills to my resume,” Emma said. “In this program, I can earn several certifications—as a Certified Nursing Assistant, First Aid, CPR, an OSHA 10 safety course, and more. I am also earning college credits even before I graduate from high school.”

Did You Know?

Fabius-Pompey has been engaged in a full curriculum review cycle. During the 2023-2024 school year, ISS team members engaged with the math department to review curriculum and make recommendations to update systems to support instruction. This year, we are engaging with the science and social studies departments to highlight strengths and areas for growth. The Fabius-Pompey staff have embraced this process, maintaining great pride in the program they offer while also being committed to continuous improvement to benefit students.
