SPOTLIGHT

Innovation Tech celebrates 10 years!

With the support of its districts and community partners, OCM BOCES took a chance on Innovation Tech in 2014 and, two years later, on Seven Valleys New Tech Academy in Cortland. Today, these non-traditional OCM BOCES “sister” schools continue to meet the needs of students who flourish in small, close-knit settings with a project-based approach to learning.

Building Community

**Restorative Practices:** Poke your head in almost any OCM BOCES classroom, and you’ll probably discover a regular “check-in” circle in which students and staff share their thoughts, feelings and forge close connections. OCM BOCES is committed to using circles and other Restorative Practice techniques to support a positive school culture, maintain healthy relationships, and resolve difficulties.

Firefighting & EMT program

This two-year Career & Technical Education program gives students access to training facilities, rescue equipment, and the expertise of emergency responders through an on-site classroom at the Madison County Emergency Management Training Center. Students have the opportunity to earn certifications in Basic Exterior Firefighting Operations (BEFO) and Emergency Medical Technician (EMT)-Basic.

OCM BOCES & North Syracuse = Student Success

North Syracuse senior Jayden Porto embraces the rigor of the OCM BOCES New Vision Medical Professions program, taking pride in his work and achievements. He is “motivated, enthusiastic and has a strong work ethic!” said his teacher, Robin Willey.

She also described Jayden as an “insightful, selfless, and thoughtful student who is wise beyond his years.”

In addition, his classroom work includes research and hands-on projects to learn about medical ethics, patient rights, anatomy and physiology, governmental regulations, and health careers, among other topics. Students can also earn CPR and First Aid certifications and up to four college credits in Anatomy & Physiology through Onondaga Community College.

Looking back on his first few months of the program, Jayden said he loved learning about the importance of healthcare terminology and how to apply it. He also appreciated the opportunity to explore nearby colleges and other post-secondary options.

Jayden says more students should consider OCM BOCES to help them “see what it would actually be like” to work in a particular field.

“It is truly a great experience,” he said.

Whatever career he pursues, Jayden has a bright future.

“Two healthcare characteristics that come to mind when I think of Jayden are empathy and maturity,” Willey said. “His quiet demeanor translates to honesty, integrity, accountability, patience and acceptance of others.”

Did You Know?

The North Syracuse Central School District hosted the OCM BOCES Regional Summer School program at its junior high school this past summer. Because of the district’s generosity, students in grades 7 to 12 who had failed a course or Regents examination had an additional opportunity to successfully complete their requirements. Summer school credit recovery is crucial for helping students stay on track with their education and graduate on time. Across four Regional Summer School sites, nearly 3,100 students received help with credit recovery, advancement, Regents preparation, and exams. North Syracuse had nearly 600 students earn credit recovery.
