SPOTLIGHT

Innovation Tech celebrates 10 years!

When Innovation Tech opened its doors in the fall of 2014, this first-ever “New Tech” school in Central New York broke many of the rules of a traditional high school. Students had no assigned desks. They worked in teams on real-world challenges. Teachers, called “facilitators,” encouraged students to direct their own learning.

With the support of its districts and community partners, OCM BOCES took a chance on Innovation Tech and, two years later, on Seven Valleys New Tech Academy in Cortland. Today, these OCM BOCES “sister” schools continue to meet the needs of students who flourish in small, close-knit settings with a project-based approach to learning.

Building Community

Restorative Practices: Poke your head in almost any OCM BOCES classroom, and you'll probably discover a regular “check-in” circle in which students and staff share their feelings, discuss nearly any topic of interest, and ultimately forge close connections with classmates and teachers. OCM BOCES is committed to using circles and other Restorative Practice techniques to support a positive school culture, maintain healthy relationships, and resolve difficulties.

Therapeutic Crisis Intervention (TCI) is another way OCM BOCES builds community in its Student Services programs. TCI's goal is to create safe, trauma-sensitive environments by training educators to prevent or de-escalate crises therapeutically. TCI also provides students with coping tools to handle stressful situations. School districts can receive TCI training through Cornell University in partnership with OCM BOCES.

Firefighting & EMT program

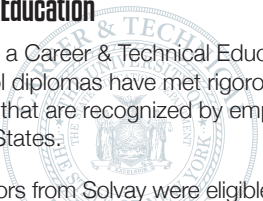

This two-year Career & Technical Education program gives students access to training facilities, rescue equipment, and the expertise of emergency responders through an on-site classroom at the Madison County Emergency Management Training Center. Students have the opportunity to earn certifications in Basic Exterior Firefighting Operations (BEFO) and Emergency Medical Technician (EMT)-Basic.

Career & Technical Education

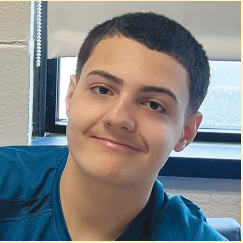

Students who earn a Career & Technical Education endorsement on their high school diplomas have met rigorous academic and industry standards that are recognized by employers and colleges across the United States.

In 2024, these seniors from Solvay were eligible for CTE endorsements: Breiana Bullock, Alexis Carter, Scott Dillon, LaCienega Frank, Kyle Harp, Gianna Johnson, Delaney Kaszubinski, Maranda Leggett, Anna Love, Kristian Isaiah Manabo, Kristine Marianne Manabo, Joseph Meloling, and Ian Ridgeway.

OCM BOCES & Solvay = Student Success

Two years after enrolling in the OCM BOCES Crossroads program, Solvay sophomore Joseph Delee is excelling both academically and socially and forming strong connections within his school community.

Joseph's teacher, Anna Hartnett, notes that he has quickly adapted to the program's norms and routines. He regularly brings his great sense of humor to the classroom while making valuable contributions to discussions.

An active participant in the FOR (Friends of Rachel) Club, Joseph is committed to creating a culture of kindness and compassion within his school. His dedication to helping others is also reflected in his involvement with the Backpack Program, where he works alongside his peers every Friday to pack backpacks with essential food items for families in need.

When given the option to transition to another program in June, Joseph chose to remain in the Crossroads program at the OCM

BOCES Crown Road Campus. He appreciates the supportive environment and the valuable learning experiences it offers.

“He has been academically successful and has made the honor roll numerous times,” Hartnett said.

Joseph says his favorite part of Crossroads is the teachers. “They’re really great,” he shared.

Staff members appreciate Joseph's positive attitude and the joy he brings to the classroom.

“Joe is a hard worker who is always improving and helping others,” said teacher Elise Stetson. “He is a kind, smart, and funny student who consistently exceeds expectations.”

Social worker Selena Fiore added that Joseph enjoys sharing his interests with others, often doing so with humor.

“Joe Delee is a bright and talented young man who takes pride in making others laugh,” she said.

Did You Know?

The Solvay Union Free School District doubled down on its efforts to support the health and wellness of its high school students. The district trained additional staff to deliver teen Mental Health First Aid (tMHFA) to students in grades 9-12. tMHFA is an evidence-based program delivered to students by certified tMHFA instructors. The program helps students recognize the signs and symptoms of mental health or substance-use challenges in themselves and their peers and teaches them how to access help from a trusted adult.
