SNAPSHOT OF BOCES SERVICES FOR CAZENOVIA CENTRAL SCHOOL DISTRICT

Molly Hagan
 Principal
 Cazenovia High School

Cazenovia's
 share of the 2025-26
 BOCES administrative
 budget
\$57,562

Through cooperative
 purchasing, in 2024-25
 Cazenovia
 saved an estimated
\$15,792
 and fuel savings are
30% on average

Initial BOCES contract
 amounted to **6.6%**
 of your current
 year budget

Estimated BOCES aid
 to be received
 in 2025-26
\$1,081,813

SPOTLIGHT

New Tech Schools Embody 'Portrait of a Graduate'

Our OCM BOCES "New Tech" high schools — Innovation Tech in Syracuse and Seven Valleys New Tech Academy in Cortland — exemplify the New York State Portrait of a Graduate. Through Project-Based Learning (PBL), students dive into meaningful, real-world projects that spark creativity, strengthen critical thinking, and build strong communication and problem-solving skills within a collaborative and inclusive school environment. Beyond the academic rigor of PBL, New Tech students are also encouraged to become self-reflective, responsible global citizens, fully bringing the Portrait's vision to life.

Promoting Attendance

School is better with YOU! That's the positive, spirited message we're sharing with students across OCM BOCES as we spotlight one of our top priorities for 2025-26: strong, consistent attendance. From vibrant signs and T-shirts to ParentSquare messages and bulletin boards, OCM BOCES is making this message impossible to miss! Committees across our Student Services programs are diving into attendance data and implementing strategies to encourage strong attendance. A key part of this effort is partnering with our OCM BOCES families to ensure every student is in school, on time and ready to learn.

Level Up! Video Game Design is Here

Creating video games offers a fun, inspiring and intellectually challenging feat for a growing number of students. That's why OCM BOCES' Media Marketing Communications program at WCNY in Syracuse will now offer a unit on video game design as part of its curriculum. The hands-on, project-based nature of game design allows students to cultivate their design, art and technical expertise while also building skills such as problem-solving, communication, and understanding the needs of video game players. Best of all, students will continue to learn within a real-world business setting at WCNY, working alongside WCNY staff on projects across TV, radio, social media, web and print platforms.

CAREER & TECHNICAL EDUCATION

Students who earn a Career & Technical Education endorsement on their high school diplomas have met rigorous academic and industry standards that are recognized by employers and colleges across the United States.

In 2025, these seniors from Cazenovia were eligible for CTE endorsements: Aidan Jurgens, Alexander Warren, Aryanna West, Caitlyn Avery, Cooper Pushlar, Elizabeth Lukowski, Emily Hall, Joseph Awald, Julia Bush, Matthew Tugaw, Preslee Tice, Sonny (Selene) Devoye, Thornton Trey, and Zachery Barber.

OCM BOCES & CAZENOVIA = STUDENT SUCCESS

Rae Western's journey into welding began with a program in Cazenovia, where she first discovered her passion for working with metal. That initial experience inspired her to pursue the two-year OCM BOCES Welding Technology program, where she could gain hands-on experience, earn industry certifications and open the door to bigger opportunities.

has become an incredible student," Watkins said.

Outside of welding, Rae's favorite parts of the program are connecting with students from other districts and participating in SkillsUSA competitions. One of her proudest projects was crafting a scrap-steel rooster.

Watkins and another instructor, Erik Mort, describe Rae as creative, talented and supportive of others. She's always willing and ready to help classmates who are struggling.

Mort shared, "Rae's creativity shines through every weld—she turns steel into art with focus and heart."

Watkins added, "Hard work and talent go hand in hand with Rae. She's proof that dedication builds more than metal; it builds character."

Rae's ultimate goal is to work in the welding industry and eventually return to BOCES as an instructor.

Her advice to future students: "Don't take your time here for granted. Two years might seem like forever, but the skills you learn will stick with you for life."

Rae was also motivated by the lack of women in the trades, especially in welding.

"Becoming a welder would help me and other women truly believe that we can do anything we put our minds to," she said.

Through her experience at OCM BOCES, Rae has learned what life in the field could look like. She has made connections with potential employers. Her confidence has soared. Instructor Scott Watkins said Rae isn't afraid to take on tough challenges and stretch herself to learn more.

"By doing hard things that make her think and work hard, Rae

DID YOU KNOW?

The OCM BOCES Youth Development team partnered with Cazenovia during the 2024-25 school year to build strong foundations in behavior management and social-emotional learning. In addition, over the summer, the Youth Development team facilitated a classroom management series that equipped teachers with practical strategies to bring directly to their classrooms. Throughout the current school year, we've continued this partnership through behavior coaching and collaborative support for educators.
