SPOTLIGHT

New Tech Schools Embody 'Portrait of a Graduate'

Our OCM BOCES "New Tech" high schools — Innovation Tech in Syracuse and Seven Valleys New Tech Academy in Cortland — exemplify the New York State Portrait of a Graduate. Through Project-Based Learning (PBL), students dive into meaningful, real-world projects that spark creativity, strengthen critical thinking, and build strong communication and problem-solving skills within a collaborative and inclusive school environment. Beyond the academic rigor of PBL, New Tech students are also encouraged to become self-reflective, responsible global citizens, fully bringing the Portrait's vision to life.

Promoting Attendance

School is better with YOU! That's the positive, spirited message we're sharing with students across OCM BOCES as we spotlight one of our top priorities for 2025-26: strong, consistent attendance. From vibrant signs and T-shirts to ParentSquare messages and bulletin boards, OCM BOCES is making this message impossible to miss! Committees across our Student Services programs are diving into attendance data and implementing strategies to encourage strong attendance. A key part of this effort is partnering with our OCM BOCES families to ensure every student is in school, on time and ready to learn.

Engineering Technology Professions

Our two-year Engineering Technology Professions program at the Cortlandville Campus invites students to explore everything from the tiniest microstructures to the most ambitious ideas in modern engineering. Through a partnership with Tompkins Cortland Community College (TC3), students can earn up to 10 college credits before graduation. Collaborations with Cornell University's NanoScale Science & Technology Facility and industry experts—including a seasoned engineer as their instructor—immerse students in real-world applications of emerging technologies. Students can also earn a Career & Technical Education endorsement on their high school diploma, giving them a strong head start toward college or career success.

CAREER & TECHNICAL EDUCATION

Students who earn a Career & Technical Education endorsement on their high school diplomas have met rigorous academic and industry standards that are recognized by employers and colleges across the United States.

In 2025, these seniors from Cortland were eligible for CTE endorsements: Jebediah Banta, John Barber, Tayton Bowman, Ashleea Brown, Nymurey Cathcart, Zachary Collins, Ansley Darling, Anthony Doloisio, Kendrin Drake, Daisy Nichole Dukes, Dagan Griffin, Cooper Gunio, Hunter Hall, Hannah Hartwick, Blade Hines, Chase Humphries, Alexis Jackson, Mya Kastenhuber, Luke Kesler, Braxton Lockwood, Jessica O'Mara, Kayden Roy, Sydney Seybold, Lilly Smith, Zachary Snell, Abigail Stanton, David Strauf, and Seth Timmerman.

OCM BOCES & CORTLAND = STUDENT SUCCESS

Cortland sophomore McKenna West feels at home at Seven Valleys New Tech Academy. The biggest lesson she's taken from her time there is simple but powerful: "always be kind and respectful to people—no matter what," she said.

McKenna first considered Seven Valleys as an eighth-grader, drawn by the promise of smaller classes and the chance to meet new people. Looking back, she hasn't regretted it. She's made significant academic gains and discovered a favorite part of her school experience: Rachel's Challenge, an extracurricular club dedicated to inspiring kindness, compassion and a positive school culture. The initiative honors Rachel Scott, the first victim of the Columbine High School tragedy in 1999.

"It's fun to plan projects and plan events yourself," McKenna said, reflecting on her role in the club.

One of her facilitators, Dany Dillon, said McKenna "has blossomed over her time at BOCES."

"She loves to share her thoughts during classroom discussions, and she goes out of her way to be part of our school community," Dillon said. "I've seen her personality and character flourish in just the year or so that she has been here."

At Seven Valleys, instruction centers on Project-Based Learning (PBL), where students develop their own driving questions and collaborate on real-world projects in small-class settings.

"McKenna is hungry for learning," Dillon said. "She's excited for every class she comes to and wants to do her very best, asking for feedback and being an advocate for herself and others."

While McKenna is still exploring her future, she hopes to earn college credits through Seven Valleys' dual enrollment program with Tompkins Cortland Community College. Looking ahead, she dreams of attending college and pursuing a career in voice acting.

Principal Nikki Morgan praised McKenna for dreaming big. "She's a fantastic addition to our school community," Morgan said.

DID YOU KNOW?

The OCM BOCES Arts In Education Team facilitated the Cortland Modern Band album project. Students traveled to Rose Hall for two days so they could track the 10 original songs they wrote in a professional studio with professional recording engineers. They then worked with professionals to mix and master their work.
