SPOTLIGHT

New Tech Schools Embody 'Portrait of a Graduate'

Our OCM BOCES "New Tech" high schools — Innovation Tech in Syracuse and Seven Valleys New Tech Academy in Cortland — exemplify the New York State Portrait of a Graduate. Through Project-Based Learning (PBL), students dive into meaningful, real-world projects that spark creativity, strengthen critical thinking, and build strong communication and problem-solving skills within a collaborative and inclusive school environment. Beyond the academic rigor of PBL, New Tech students are also encouraged to become self-reflective, responsible global citizens, fully bringing the Portrait's vision to life.

Promoting Attendance

School is better with YOU! That's the positive, spirited message we're sharing with students across OCM BOCES as we spotlight one of our top priorities for 2025-26: strong, consistent attendance. From vibrant signs and T-shirts to ParentSquare messages and bulletin boards, OCM BOCES is making this message impossible to miss! Committees across our Student Services programs are diving into attendance data and implementing strategies to encourage strong attendance. A key part of this effort is partnering with our OCM BOCES families to ensure every student is in school, on time and ready to learn.

Level Up! Video Game Design is Here

Creating video games offers a fun, inspiring and intellectually challenging feat for a growing number of students. That's why OCM BOCES' Media Marketing Communications program at WCNY in Syracuse will now offer a unit on video game design as part of its curriculum. The hands-on, project-based nature of game design allows students to cultivate their design, art and technical expertise while also building skills such as problem-solving, communication, and understanding the needs of video game players. Best of all, students will continue to learn within a real-world business setting at WCNY, working alongside WCNY staff on projects across TV, radio, social media, web and print platforms.

CAREER & TECHNICAL EDUCATION

Students who earn a Career & Technical Education endorsement on their high school diplomas have met rigorous academic and industry standards that are recognized by employers and colleges across the United States.

In 2025, these seniors from East Syracuse Minoa were eligible for CTE endorsements: Termaria Groover, Timothy Hess, Anthony Johnson, Alec Kalfass, Christina McGarrity, William Messina and Colyn Newland.

OCM BOCES & EAST SYRACUSE MINOA = STUDENT SUCCESS

East Syracuse Minoa senior Logan Johnson has always been interested in mechanics, so the OCM BOCES Heavy Equipment Repair, Operations and Diesel Technology program seemed like a perfect match.

The program offered a unique opportunity to learn skills he could use immediately after high school. He was especially excited about getting "a foot in the door" at Tracey Road Equipment in East Syracuse, where the two-year Career & Technical Education program is based.

So far, the program has met all of his expectations.

"I've gained a lot of knowledge in hydraulics, as well as how engines work and how to rebuild them," he said.

At Tracey Road, students have access to an on-site classroom, a fully equipped garage with engines and vehicles, and real-world learning opportunities such as company-assigned projects and job shadowing with industry professionals.

Logan says his favorite part of the program is applying his knowledge and skills to tasks outside a traditional classroom. He encourages current sophomores to enroll.

"Don't hold back," he said. "You will definitely get a lot of knowledge out of it."

Instructor Bryan Wilson describes Logan as a "natural born leader" in the classroom, noting that he is always willing to teach and encourage his classmates when they are struggling. He also works diligently to hone his own skills, especially with complex tasks.

"Logan takes it upon himself to practice or review a subject that he finds challenging," Wilson said. "This alone sets him apart from others."

Logan, he added, has a bright future.

"Logan is a prime example of what a good student, future employee and great citizen looks like," Wilson said. "He is destined for great success."

DID YOU KNOW?

The East Syracuse Minoa "Sources of Strength Peer Advisors" presented at the 36th Annual CNY Prevention Conference in the spring of 2025. Students shared their experiences with implementing the Sources of Strength program, displaying an amazing amount of energy, positivity and hope to conference participants. The annual Prevention Conference, held at the DoubleTree by Hilton in East Syracuse, brought together 175 professionals, including social workers, licensed mental health counselors, educators and representatives from government and community organizations.
