## SNAPSHOT OF BOCES SERVICES FOR MARATHON CENTRAL SCHOOL DISTRICT

Marathon's  
share of the 2025-26  
BOCES administrative  
budget  
**\$30,161**

Through cooperative  
purchasing, in 2024-25  
Marathon  
saved an estimated  
**\$67,022**  
and fuel savings are  
**30%** on average

Initial BOCES contract  
amounted to **15.6%**  
of your current  
year budget

Estimated BOCES aid  
to be received  
in 2025-26  
**\$1,415,333**

## SPOTLIGHT

### New Tech Schools Embody 'Portrait of a Graduate'

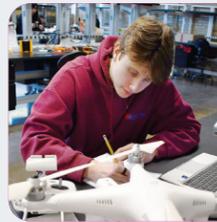

Our OCM BOCES "New Tech" high schools — Innovation Tech in Syracuse and Seven Valleys New Tech Academy in Cortland — exemplify the New York State Portrait of a Graduate. Through Project-Based Learning (PBL), students dive into meaningful, real-world projects that spark creativity, strengthen critical thinking, and build strong communication and problem-solving skills within a collaborative and inclusive school environment. Beyond the academic rigor of PBL, New Tech students are also encouraged to become self-reflective, responsible global citizens, fully bringing the Portrait's vision to life.

### Promoting Attendance

*School is better with YOU!* That's the positive, spirited message we're sharing with students across OCM BOCES as we spotlight one of our top priorities for 2025-26: strong, consistent attendance. From vibrant signs and T-shirts to ParentSquare messages and bulletin boards, OCM BOCES is making this message impossible to miss! Committees across our Student Services programs are diving into attendance data and implementing strategies to encourage strong attendance. A key part of this effort is partnering with our OCM BOCES families to ensure every student is in school, on time and ready to learn.

### Engineering Technology Professions

Our two-year Engineering Technology Professions program at the Cortlandville Campus invites students to explore everything from the tiniest microstructures to the most ambitious ideas in modern engineering. Through a partnership with Tompkins Cortland Community College (TC3), students can earn up to 10 college credits before graduation. Collaborations with Cornell University's NanoScale Science & Technology Facility and industry experts—including a seasoned engineer as their instructor—immerse students in real-world applications of emerging technologies. Students can also earn a Career & Technical Education endorsement on their high school diploma, giving them a strong head start toward college or career success.

### CAREER & TECHNICAL EDUCATION

Students who earn a Career & Technical Education endorsement on their high school diplomas have met rigorous academic and industry standards that are recognized by employers and colleges across the United States.

In 2025, these seniors from Marathon were eligible for CTE endorsements: Justin Baez, Hannah Brame, Aubrie Brown, Jordin Chrysler, Dawsyn Cole, Jaxon Compagni, Hailey Contri, Breezeana DeRusso, Simon Donah, Barry Fralick, Joezi Hoy, Julianna Irwin, Olivia Lewis, Alyx Peck, Maxim Penrose, Austin Poth, Zayden Potts, Justin Pyhtila, Sebastian Robbins, John Root, Luke Rudolewicz, Haeleigh Smith, Leila Westcott, Alexander Wood, and Autumn Young.

## OCM BOCES & MARATHON = STUDENT SUCCESS

Seven Valleys New Tech Academy has proven to be a perfect fit for Adria Soldani, a Marathon sophomore whose grades, confidence and social skills have soared since she joined the OCM BOCES high school last year.

"Adria is a wonderful example of a Seven Valleys success story—a student who has completely transformed her engagement

in school and community because of the support of a small, welcoming school community and our focus on Project Based Learning," said Facilitator Kay Kresge.

Project-Based Learning (PBL) drew Adria to Seven Valleys. This instructional approach allows students to develop knowledge and skills by exploring real-world challenges through collaborative, inquiry-driven projects. Students work in small-class settings and grow comfortable with public speaking as they present their culminating projects to peers, staff and even community members.

Adria says the hands-on nature of PBL keeps her motivated, and she also values the school's strong sense of community.

"My grades are much, much better now that I'm in this engaging program," she said. "I also enjoy my time here—the school community is probably my favorite aspect. Everyone is really nice and willing to help."

Kresge noted Adria's impressive social and academic growth.

"She is an extremely bright young woman who is always willing to offer her perspectives," Kresge said. "I wish every class I taught had Adria in it."

Another facilitator, Dany Dillon, praised Adria's positive approach to learning.

"Adria has the right attitude for learning pretty much every day," Dillon said. "She's always willing to participate and engage in the work."

## DID YOU KNOW?

Marathon has launched a FIRST LEGO League Challenge Team for students in grades 4-8. This year's theme, "Unearthed," invites students to dig into the fascinating world of archaeology. Through the program, students will explore STEM in action—researching, problem-solving, coding, and engineering as they design and program a LEGO robot to complete a series of missions. Teams also collaborate on an innovation project, identifying and proposing creative solutions to real-world challenges. Along the way, they'll embody the FIRST LEGO League Core Values of teamwork, inclusion, impact, fun, discovery and innovation.
