SPOTLIGHT

New Tech Schools Embody 'Portrait of a Graduate'

Our OCM BOCES "New Tech" high schools — Innovation Tech in Syracuse and Seven Valleys New Tech Academy in Cortland — exemplify the New York State Portrait of a Graduate. Through Project-Based Learning (PBL), students dive into meaningful, real-world projects that spark creativity, strengthen critical thinking, and build strong communication and problem-solving skills within a collaborative and inclusive school environment. Beyond the academic rigor of PBL, New Tech students are also encouraged to become self-reflective, responsible global citizens, fully bringing the Portrait's vision to life.

Promoting Attendance

School is better with YOU! That's the positive, spirited message we're sharing with students across OCM BOCES as we spotlight one of our top priorities for 2025-26: strong, consistent attendance. From vibrant signs and T-shirts to ParentSquare messages and bulletin boards, OCM BOCES is making this message impossible to miss! Committees across our Student Services programs are diving into attendance data and implementing strategies to encourage strong attendance. A key part of this effort is partnering with our OCM BOCES families to ensure every student is in school, on time and ready to learn.

Level Up! Video Game Design is Here

Creating video games offers a fun, inspiring and intellectually challenging feat for a growing number of students. That's why OCM BOCES' Media Marketing Communications program at WCNY in Syracuse will now offer a unit on video game design as part of its curriculum. The hands-on, project-based nature of game design allows students to cultivate their design, art and technical expertise while also building skills such as problem-solving, communication, and understanding the needs of video game players. Best of all, students will continue to learn within a real-world business setting at WCNY, working alongside WCNY staff on projects across TV, radio, social media, web and print platforms.

CAREER & TECHNICAL EDUCATION

Students who earn a Career & Technical Education endorsement on their high school diplomas have met rigorous academic and industry standards that are recognized by employers and colleges across the United States.

In 2025, these seniors from Marcellus were eligible for CTE endorsements: Jacob Abbott, Callahan Amidon, Amanda Barbaro, Matthew Barbaro, Emmett Barnes, Isabelle Brown, Jonathan Cross, Joseph Deemer III, Alan Korycinski, Ragen Robinson, Blake Robinson, Liv Rudy, Michael Shoemaker, Nathaniel Shoemaker and Alexander Sperling.

OCM BOCES & MARCELLUS = STUDENT SUCCESS

Marcellus junior Rica Armbrister came to Innovation Tech as a sophomore, hoping for a fresh start and the opportunity to learn in a smaller, more personalized school environment. Since then, Rica has grown tremendously: she has formed exciting new friendships, gained confidence in her presentation skills and developed a clear plan for her future.

me to feel comfortable and make friends."

One of her facilitators at Innovation Tech, Tho Le, agreed, saying Rica "has really stepped out of her shell" and become a leader at the school.

"She is a great collaborator and serves as a role model to other students," Le said.

For Rica, the close-knit, supportive atmosphere at OCM BOCES has fueled her enthusiasm for learning and given her plenty of opportunities to connect with others.

"I love that I have gotten to meet students from several different districts both at Innovation Tech and through Career & Technical Education," she said. "I like to hear everyone's stories, where they are from and what they are interested in. It has helped me develop some great friendships."

Le agrees.

"Rica is a positive influence in the classroom, both academically and socially," Le said. "She is easy to get along with and talks easily with her peers. She will help out in any way she is asked. I love having her in the classroom."

In addition to attending Innovation Tech, Rica is enrolled in the two-year OCM BOCES Cosmetology Program, where she spends her afternoons in a hands-on lab at the nearby Thompson Road Campus. She loves working with hair—especially learning about different hair types—and is eager to learn more. Rica looks forward to earning her cosmetology license next year and launching a career in the field.

"I think OCM BOCES is a great place," she said. "I am comfortable here. Both programs have helped me learn how to step out of my comfort zone. I initially was afraid to talk to people, thinking they wouldn't like me, but the environments here have made it easy for

DID YOU KNOW?

The Marcellus Central School District continues to demonstrate a strong commitment to student success through data-driven decision-making and building supportive systems. Last year, OCM BOCES partnered with the district to train all staff in using the BIMAS-2, with a focus on responding to students who needed immediate support as well as strengthening Tier 1 practices for all learners. In addition, Marcellus has been working diligently to implement their Multi-Tiered System of Support (MTSS) plan with fidelity. OCM BOCES has collaborated with the district to provide staff with foundational MTSS training, while the district's MTSS team has been actively engaged in BOCES leadership events to ensure alignment and consistency every step of the way.
