SPOTLIGHT

New Tech Schools Embody 'Portrait of a Graduate'

Our OCM BOCES "New Tech" high schools — Innovation Tech in Syracuse and Seven Valleys New Tech Academy in Cortland — exemplify the New York State Portrait of a Graduate. Through Project-Based Learning (PBL), students dive into meaningful, real-world projects that spark creativity, strengthen critical thinking, and build strong communication and problem-solving skills within a collaborative and inclusive school environment. Beyond the academic rigor of PBL, New Tech students are also encouraged to become self-reflective, responsible global citizens, fully bringing the Portrait's vision to life.

Promoting Attendance

School is better with YOU! That's the positive, spirited message we're sharing with students across OCM BOCES as we spotlight one of our top priorities for 2025-26: strong, consistent attendance. From vibrant signs and T-shirts to ParentSquare messages and bulletin boards, OCM BOCES is making this message impossible to miss! Committees across our Student Services programs are diving into attendance data and implementing strategies to encourage strong attendance. A key part of this effort is partnering with our OCM BOCES families to ensure every student is in school, on time and ready to learn.

Engineering Technology Professions

Our two-year Engineering Technology Professions program at the Cortlandville Campus invites students to explore everything from the tiniest microstructures to the most ambitious ideas in modern engineering. Through a partnership with Tompkins Cortland Community College (TC3), students can earn up to 10 college credits before graduation. Collaborations with Cornell University's NanoScale Science & Technology Facility and industry experts—including a seasoned engineer as their instructor—immerse students in real-world applications of emerging technologies. Students can also earn a Career & Technical Education endorsement on their high school diploma, giving them a strong head start toward college or career success.

CAREER & TECHNICAL EDUCATION

Students who earn a Career & Technical Education endorsement on their high school diplomas have met rigorous academic and industry standards that are recognized by employers and colleges across the United States.

In 2025, these seniors from McGraw were eligible for CTE endorsements: Ryliegh Brown, Aubrey Burdick, Diamond-Justice, Donnelly-White, Dalton-James Greene, Caleb Metzler, Myranda Murray, Cody Ross, Kamden Sears, Racelynn Shellings, and Xavier Whible-Wright.

OCM BOCES & MCGRAW = STUDENT SUCCESS

positive energy brightens the day for everyone around him.

Ayden's teacher, Teri Powers, attributes his success to the supports in place at OCM BOCES. The combination of an intensive management program, a strong mental health team, dedicated staff and a classroom structure that nurtures emotional well-being has helped Ayden make significant gains.

"With the smaller class size, we can spend more time with Ayden, getting to know him and what works for him," Powers said. "Ayden has become such a happy student who shows up with a smile on

his face every day and loves school. He is truly thriving." Powers remembers a time when Ayden struggled to complete his work and couldn't log into his computer without help. Now, he does both with ease. He navigates Google Classroom confidently and loves Prodigy, a Google platform for learning math and English. He has also found joy in physical education classes at SUNY Cortland.

Beyond his academic success, Ayden has grown into a kind and caring classmate.

"With his friendly personality, he is a joy to be around," Powers said. "He works hard every day. If you are having a rough day, he is the first one to ask if he can give you a hug."

Principal Kim Capalongo says Ayden has "a big heart" and is always willing to help others.

"He is always so excited and proud to share his accomplishments with me," Capalongo said. "It has been rewarding watching Ayden grow in all facets within the school community."

DID YOU KNOW?

Over the past two years, OCM BOCES has been honored to walk alongside McGraw as they strengthen supports for their youngest learners. Our work has centered on mentoring and coaching teachers in UPK through 1st grade, focusing on behavior strategies that build calm, consistent and nurturing classrooms. By investing in their early childhood educators, McGraw is laying the foundation for long-term student success. Through ongoing coaching and mentoring, teachers are gaining practical tools to respond to challenges with confidence, while also fostering social-emotional skills that help students thrive.
