SPOTLIGHT

New Tech Schools Embody 'Portrait of a Graduate'

Our OCM BOCES "New Tech" high schools — Innovation Tech in Syracuse and Seven Valleys New Tech Academy in Cortland — exemplify the New York State Portrait of a Graduate. Through Project-Based Learning (PBL), students dive into meaningful, real-world projects that spark creativity, strengthen critical thinking, and build strong communication and problem-solving skills within a collaborative and inclusive school environment. Beyond the academic rigor of PBL, New Tech students are also encouraged to become self-reflective, responsible global citizens, fully bringing the Portrait's vision to life.

Promoting Attendance

School is better with YOU! That's the positive, spirited message we're sharing with students across OCM BOCES as we spotlight one of our top priorities for 2025-26: strong, consistent attendance. From vibrant signs and T-shirts to ParentSquare messages and bulletin boards, OCM BOCES is making this message impossible to miss! Committees across our Student Services programs are diving into attendance data and implementing strategies to encourage strong attendance. A key part of this effort is partnering with our OCM BOCES families to ensure every student is in school, on time and ready to learn.

Level Up! Video Game Design is Here

Creating video games offers a fun, inspiring and intellectually challenging feat for a growing number of students. That's why OCM BOCES' Media Marketing Communications program at WCNY in Syracuse will now offer a unit on video game design as part of its curriculum. The hands-on, project-based nature of game design allows students to cultivate their design, art and technical expertise while also building skills such as problem-solving, communication, and understanding the needs of video game players. Best of all, students will continue to learn within a real-world business setting at WCNY, working alongside WCNY staff on projects across TV, radio, social media, web and print platforms.

CAREER & TECHNICAL EDUCATION

Students who earn a Career & Technical Education endorsement on their high school diplomas have met rigorous academic and industry standards that are recognized by employers and colleges across the United States.

In 2025, these seniors from Onondaga were eligible for CTE endorsements: James Corrente, Lina Hayes, Lucas McIntosh, Miles Parker and Maddox Yemma.

OCM BOCES & ONONDAGA = STUDENT SUCCESS

Onondaga senior Emily Mohamed is taking a major step toward her dream career in healthcare through the Health Occupations program at the OCM BOCES Thompson Road Campus.

Emily plans to become a registered nurse, which means this two-year Career & Technical Education (CTE) program is helping her build a strong foundation

for that goal. Through OCM BOCES, she's gaining classroom instruction from an experienced healthcare professional, practical training in a long-term care facility and the opportunity to earn her Certified Nursing Assistant (CNA) certification by passing a state exam.

Inspired by her stepmother, who works as a CNA, Emily said she was drawn to the program because it offered a clear first step into the medical field.

"I knew that at the end of the two years, I would have this great opportunity to get my CNA certification," Emily said. "BOCES has

made me confident in my decision about what I want to do after high school and what I want to go to college for."

In the classroom, students explore many aspects of long-term care, including basic nursing procedures, patient rights, ethics, medical terminology and human body systems. Just steps away, a hospital-like lab gives them space to practice those skills in a realistic setting. Students also complete internships and can earn a CTE endorsement on their high school diploma — a distinction that highlights their preparation for both college and career success.

"I've learned a lot about the human body in the classroom," Emily said, "and I've developed real skills in the lab that can be used in a clinical setting."

Her instructor, Jacinta Bryant, said Emily has greatly deepened her knowledge and grown into a role model for her classmates.

"Emily has been a great addition to our classroom because she demonstrates a strong desire to succeed," Bryant said. "She gets her work done, performs her lab skills well, and gets along well with her peers."

DID YOU KNOW?

The Onondaga Central School District has expanded its capacity to provide preschool programming. The district worked with an OCM BOCES grant writer to develop and submit a competitive grant application. As a result, the district was awarded the New York State UPK Expansion Grant to meet the needs of the district's youngest learners and help them thrive.
