SPOTLIGHT

New Tech Schools Embody 'Portrait of a Graduate'

Our OCM BOCES "New Tech" high schools — Innovation Tech in Syracuse and Seven Valleys New Tech Academy in Cortland — exemplify the New York State Portrait of a Graduate. Through Project-Based Learning (PBL), students dive into meaningful, real-world projects that spark creativity, strengthen critical thinking, and build strong communication and problem-solving skills within a collaborative and inclusive school environment. Beyond the academic rigor of PBL, New Tech students are also encouraged to become self-reflective, responsible global citizens, fully bringing the Portrait's vision to life.

Promoting Attendance

School is better with YOU! That's the positive, spirited message we're sharing with students across OCM BOCES as we spotlight one of our top priorities for 2025-26: strong, consistent attendance. From vibrant signs and T-shirts to ParentSquare messages and bulletin boards, OCM BOCES is making this message impossible to miss! Committees across our Student Services programs are diving into attendance data and implementing strategies to encourage strong attendance. A key part of this effort is partnering with our OCM BOCES families to ensure every student is in school, on time and ready to learn.

Level Up! Video Game Design is Here

Creating video games offers a fun, inspiring and intellectually challenging feat for a growing number of students. That's why OCM BOCES' Media Marketing Communications program at WCNY in Syracuse will now offer a unit on video game design as part of its curriculum. The hands-on, project-based nature of game design allows students to cultivate their design, art and technical expertise while also building skills such as problem-solving, communication, and understanding the needs of video game players. Best of all, students will continue to learn within a real-world business setting at WCNY, working alongside WCNY staff on projects across TV, radio, social media, web and print platforms.

CAREER & TECHNICAL EDUCATION

Students who earn a Career & Technical Education endorsement on their high school diplomas have met rigorous academic and industry standards that are recognized by employers and colleges across the United States.

In 2025, these seniors from Solvay were eligible for CTE endorsements: Gabriel Barndollar, Kyira Davis, Alexis Hannan, Dakota Lobner, Leah Pulaski, Kaylin Revette, Robert Reynolds, Nicholas Richardson, Trinity Sharp, Caleb-Anthony Steinbrecher and Vangloek Thang.

OCM BOCES & SOLVAY = STUDENT SUCCESS

Solvay senior Carmella Bagozzi is a standout student in the two-year Laboratory Technician program at the OCM BOCES Thompson Road Campus.

"Carmella shines," said her teacher, Jennifer Snee. "She takes pride in her grades, helps others who are struggling, asks great questions and works hard to understand more complex concepts. She is an overall great student and fabulous young woman who has every ability to succeed."

Carmella enrolled in the program to explore different career paths, beginning with her fascination with how the human body works on a microscopic level. In this Career & Technical Education class, students collect specimens, perform clinical laboratory testing, write reports, and present their findings in a state-of-the-art, real-world lab environment.

Carmella said she feels "very lucky" to have this opportunity through OCM BOCES. So far, she has learned the most about microscopy—using a microscope to view objects too small to be seen with the naked eye—and anatomy.

"I really enjoy being able to learn how the body functions, then analyze it and see it on a molecular level," she said.

She also appreciates the close-knit, family-like atmosphere of her OCM BOCES class.

"I love the sense of community that BOCES establishes," she said.

Snee said Carmella's kind and generous presence — reflected in her positive spirit, passion and commitment to excellence — has been a tremendous boost to others and to the classroom as a whole.

"Carmella's drive to be successful for her future is contagious," Snee said. "There are so many times when Carmella has made my day better, and I am grateful for that."

DID YOU KNOW?

The Solvay Union Free School District continues to support youth substance use prevention through their participation in the Alcohol Drug Abuse Prevention Education Program (ADAPEP). Students benefit from the delivery of evidence-based programs for substance use prevention. Counselors benefit from monthly meetings that provide opportunities for collegiality, professional learning on topics integral to the field, participation in clinical supervision, monthly newsletters, weekly office hours and access to evidence-based programs.
