Career & Technical Education

New York State’s approval process for Career and Technical Education (CTE) programs has raised the quality and rigor of courses that prepare students for employment and postsecondary study. Approved programs lead to an industry-recognized credential or certificate at the postsecondary level, or an associate or baccalaureate degree. CTE courses offer students the opportunity to apply academic concepts to real-world situations and prepare them for industry-based assessments or certifications. They have the opportunity to earn college credits or advanced standing while in high school and take part in work-based learning opportunities where, they demonstrate mastery of skills essential in the workplace. In addition, our Technically Endorsed programs, embedded in area businesses, have been recognized by District Administration magazine as one of more than 30 national innovative programs.

In 2021, 412 students from OCM BOCES’ component districts were eligible to earn CTE endorsements on their high school diplomas, including Jamesville-DeWitt students Jaycee Baker, Violet Crav, Travis Davitt, Maziawyeh El-Hindi, Mira Gkasion, Aiden Hence, Ethan Rivard, Kyle Shaw and Nicholas Wallingford-Stirner.

OCM BOCES & Jamesville-DeWitt = Student Success

Last year, Alice O’Connor joined the OCM BOCES Physical Therapy & Rehabilitation Professions program with a simple goal: to explore careers in the medical field. This year, as a senior, that decision has launched her onto an exciting trajectory. Alice has been accepted into the six-year Doctor of Physical Therapy program at Nazareth College in Rochester, where she will also play soccer. She is already taking college courses through the Nazareth College program — Anatomy & Physiology, and Medical Terminology, for example — that will give her a leg up on her peers and help her understand the language of the medical field.

Her teacher, Jennifer Tucker-Locke, PT, DPT, said Alice has been an exceptional student and “always comes to class with a positive attitude, ready to learn.” She believes the study skills Alice developed through the two-year OCM BOCES program, especially the challenge of mastering rigorous college work on top of her other school activities, should help her greatly when she moves on to higher education.

“Alice is one of the most dedicated, hard-working students I have ever had,” Tucker-Locke said. “She does not settle for less than her best work. I am excited to see what she accomplishes next.”

Alice is also glad she joined the Physical Therapy & Rehabilitation program. She appreciates how much it prepared her for college, but she also appreciates the special relationships she developed with her peers.

“ I was able to meet new people from different districts,” she said, “and make lasting friendships.”

OCM BOCES & Jamesville-DeWitt = Student Success

Last year, Alice O’Connor joined the OCM BOCES Physical Therapy & Rehabilitation Professions program with a simple goal: to explore careers in the medical field. This year, as a senior, that decision has launched her onto an exciting trajectory. Alice has been accepted into the six-year Doctor of Physical Therapy program at Nazareth College in Rochester, where she will also play soccer. She is already taking college courses through the Nazareth College program — Anatomy & Physiology, and Medical Terminology, for example — that will give her a leg up on her peers and help her understand the language of the medical field.

Her teacher, Jennifer Tucker-Locke, PT, DPT, said Alice has been an exceptional student and “always comes to class with a positive attitude, ready to learn.” She believes the study skills Alice developed through the two-year OCM BOCES program, especially the challenge of mastering rigorous college work on top of her other school activities, should help her greatly when she moves on to higher education.

“Alice is one of the most dedicated, hard-working students I have ever had,” Tucker-Locke said. “She does not settle for less than her best work. I am excited to see what she accomplishes next.”

Alice is also glad she joined the Physical Therapy & Rehabilitation program. She appreciates how much it prepared her for college, but she also appreciates the special relationships she developed with her peers.

“ I was able to meet new people from different districts,” she said, “and make lasting friendships.”

Did You Know?

Multi-Tiered System of Support (MTSS) is an evidence-based framework that allows schools to focus on prevention, early identification, and integration of supports across all of their health, behavior, social-emotional, and academic domains to meet the needs of their students. The Jamesville-DeWitt Central School District has committed to implementing MTSS through the district’s participation in the OCM BOCES MTSS Leadership Community. This means district staff members are collaborating with other school districts in the region to build a working knowledge of the MTSS core components, including preventative techniques, teaming, use of data, implementation of evidence-based practices, and tiered intervention structures. The district will also be able to assess its current resources and structures, develop an action plan, build structures to develop or strengthen its MTSS framework, and engage in data-based decision-making and evaluation. Facilitators from OCM BOCES’ Consultant Support Services provide facilitation, coaching and individualized consultation to assist the district in meeting its MTSS goals.
