OCM BOCES & North Syracuse = Student Success

The small-group instruction offered in the OCM BOCES Reach Program at Crown Road Campus has proven to be a good fit for seventh-grader Lilliana Milian, who has become much more confident in herself and her abilities since she first joined the program in the fall. Even more significant, Lilliana has asserted herself as a classroom leader and become a positive role model for her peers, according to the Reach staff.

"Lilly excels in any project that requires collaboration," said Tanja Consentino, her English Language Arts teacher. "She also encourages her peers to make positive choices."

The Reach Program provides 7th- and 8th-grade students with a rigorous, personalized educational experience that is designed to prepare them for success at the high school level. A low staff-to-student ratio allows for community and relationship building, which in turn supports the social-emotional learning needs of the students.

For Lilliana, REACH has helped her stay on top of her academics — she works exceptionally hard to make sure her assignments are complete, Consentino said. During a recent presentation, Lilliana showed confidence in front of the room and even helped others "find their voices" after initially being hesitant, Consentino added.

Locking toward her future, Lilliana dreams of becoming a teacher. That’s because she loves the teachers at Reah and enjoys opportunities to help out in the classroom.

One of her classmates, Kendra Latz, said Lilliana is a "comforting presence" at school.

"Lilly is someone I can talk to, and we help each other out," Kendra said. "She is also a sweet, kind and caring person."

Career & Technical Education

New York State’s approval process for Career and Technical Education (CTE) programs has raised the quality and rigor of courses that prepare students for employment and postsecondary study. Approved programs lead to an industry-recognized credential or certificate at the postsecondary level, or an associate or baccalaureate degree. CTE courses offer students the opportunity to apply academic concepts to real-world situations and prepare them for industry-based assessments or certifications. They have the opportunity to earn college credit or advanced standing while still in high school and take part in work-based learning opportunities where they demonstrate mastery of skills essential in the workplace. In addition, our Technically Endorsed programs, embedded in area businesses, have been recognized by District Administration magazine as one of more than 30 national innovative programs.

In 2021, 412 seniors from OCM BOCES’ component districts were able to earn CTE endorsements on their high school diplomas, including North Syracuse students Saverio Arena, Zachary Swezney, Joseph Young-Bey, Alexander Colin, Cristopher Cummrigil, Kyle Drongholc, Philip Jandrew Jr., Quinten Maring, Austin Souva, Nicholas Golto, Matthew Frank, Noah Henderson, Kaybii Lawton, Ethan Rourke, Jackson Klupfer, Olivia Bozinski, Malenka Keszowski, Lillian Van Ryn, Mackenzie S. White, Madelyn Alibrandi, Cecilia Cross, Rayna Mays, Tyler Reitz, Mackenzie Smith, Darran Foraker, Rebecca Hinman, Sara Doody, Za’ki Givens, Nikolos Jobson, Jacqueline Mayeres, Tyler Reitz, Mackenzie Smith, Darran Foraker, Rebecca Juskow, Alexandra Jacob, Joshua Briggs, Adam Brown, Nathan Daugard and Liam Ryan.

Did You Know?

The Mid-State Regional Bilingual Education Resources Network (RBERN) and its English as a New Language (ENL) Council partnered with the the OCM BOCES Literacy Department, SUNY Cortland preservice teachers and North Syracuse teachers and administrators to hold the first of what we hope will be many summer literacy programs for English Language Learners. The program provided opportunities for students to engage with language acquisition and reading and writing, but it also allowed students and staff to connect with each other and build positive relationships — relationships that would also help students be set up for success in the fall. Data is currently being analyzed on the effectiveness of the program, but the overall feedback was very positive.
