New York State’s approval process for Career and Technical Education (CTE) programs has raised the quality and rigor of courses that prepare students for employment and postsecondary study. Approved programs lead to an industry-recognized credential or certificate at the postsecondary level, or an associate or baccalaureate degree. CTE courses offer students the opportunity to apply academic concepts to real-world situations and prepare them for industry-based assessments or certifications. They have the opportunity to earn college credit or advanced standing while still in high school and take part in work-based learning opportunities where they demonstrate mastery of skills essential in the workplace. In addition, our Technically Endorsed programs, embedded in area businesses, have been recognized by District Administration magazine as one of more than 30 national innovative programs.

In 2021, 412 students from OCM BOCES’ component districts were eligible to earn CTE endorsements on their high school diplomas, including West Genesee students Adam Barlow, Eric Capener, Alyssa Cárdenes, Josue Castanón, Ryan Chiparelli, Robert Colletti III, Nicholas DelCajio, Adrianna Estelar, Jake Gairner-Baca, Austin Germleintz, Madison Gilbert, Záki Gollely, Logan Granato, Mattayn Gres, Justin Hatzyn, Justin Henson, Jazmyn Henson, Tyler Hubbard, Natalie Huttar, Anna Iauco, Makayla Kemp, Christiana Kilburn, Faith Knox, Mitchell Laufer, Molly Mahoney, Aiden McShane, Carson Miles, Muhammad Miljkovic, Skyler Moon, Nicholas Orendorf, Dylan Ponzfa, Christopher Reed, Benjamin Schwartz, Dasan Simmons, Ryan Trace, Andrew Triolano, Colton Watkins and Luke Wilson.

OCM BOCES & West Genesee = Student Success

Over the past two years, Albert “AJ” Sharpe has made big strides in the OCM BOCES SKATE program at Cicero-North Syracuse High School. SKATE, which stands for Scaffolding Kids’ Abilities Through Education, is specifically designed to support students on the autism spectrum. For AJ, that means getting the support and structure he needs to receive a comprehensive education while also being part of the larger school community.

“AJ has come a long way in his self-regulation skills and has acclimated himself very well into the structure and routine of the SKATE classroom,” said his teacher, Paul Annicharico. “He has thrived with the academic work we provide and has enjoyed our community outings.”

While outings have been limited because of the pandemic, that has not stopped AJ from learning about and practicing many of the life skills he will need after high school to become more independent. Shopping, cooking, cleaning and exercising have all been on the list. AJ and his classmates have gone shopping at Wegmans, cooking at Casey’s Place, swimming at the YMCA, and bowling.

Inside the classroom, AJ interacts well with staff, loves helping his classmates, and has made significant progress in expressing his needs, wants and emotions, Annicharico said. He also has a great sense of humor and loves writing about one of his favorite interests — Marvel comics and superheroes.

“I’m so proud of AJ,” Annicharico said. “He has excelled in the SKATE program and really takes pride in his classwork. He is doing a great job.”

Did You Know?

The West Genesee Central School District has committed to implementing Social Emotional Learning (SEL) at the secondary level through its participation in the Dialectical Behavioral Therapy Skills Training for Emotional Problem Solving for Adolescents (DBT STEPS) Project. This project is being facilitated by OCM BOCES Consultant Support Services. The district attended a three-day initial training this past summer with the developers of DBT STEPS—Dr. James Mazza and Dr. Elizabeth Dexter Mazza. As part of the project, West Genesee has the benefit of monthly consultation with the Mazzas, facilitated SEL curriculum development, and continued support in the form of coaching and consultation through Consultant Support Services.
